Meltblown Filters

Octo Water Treatment Meltblown filter cartridges are manufactured using 100% Polypropylene construction. They offer excellent filtration and good thermal stability. The unique density gradient construction maximizes efficiency and minimizes pressure drop. This filter will not impart taste, odor, or color to the filtered product and has superior chemical resistance for process fluid applications.

Available in 4 3/4", 5", 9 3/4", 10", 20", 30" and 40" in various diameters with filtration depths from 1µ to 100µ
